

INFECTION CONTROL UPDATE 2014

Satellite Conference and Live Webcast

Tuesday, March 18, 2014 9:00-11:00 a.m. (Central Time)
10:00 a.m.-12:00 p.m. (Eastern) • 8:00-10:00 a.m. (Mountain) • 7:00-9:00 a.m.

The prevention and management of disease transmission is vital to the overall health of Alabama citizens. This is why it is imperative that health care workers protect themselves when providing care for patients. Program faculty will review standard disease control precautions as defined by the Occupational and Safety Health Administration (OSHA).

The DETECT, TEST, and REPORT program, reporting requirements, and treatment options for notifiable diseases will also be discussed.

FACULTY

Mary G. McIntyre, MD, MPH

Acting State Epidemiologist
Assistant State Health Officer for
Disease Control and Prevention
Alabama Department of Public Health

Tina G. Pippin, RN, BSN

Surveillance Nurse Manager
Division of Epidemiology
Alabama Department of Public Health

PROGRAM OBJECTIVES

1. Know the standard disease control precautions.
2. Identify the role of the health care and lay communities in outbreak investigations.
3. Understand what DETECT, TEST, and REPORT is and how it applies to clinical practitioners.
4. Discuss two outbreak investigations conducted by Alabama Department of Public Health staff.
5. Ensure the most accurate diagnosis, testing, treatment, and reporting of notifiable diseases.
6. Locate basic disease information and proper test methods on www.adph.org/epi.
7. Determine what diseases need to be reported, how they can be reported, and timeframe for reporting.
8. Identify Notifiable Disease Reporters.
